

Mercury-Free (Hg-Free) Certification

June 6, 2023

Dear Customer,

Pursuant to your request for mercury-free (Hg-Free) certification of Amphenol Aerospace Operations (AAO) and/or Amphenol Commercial Air Division (ACAD) interconnect products, we hereby offer the following position.

Per review of the materials & processes utilized in the manufacture of our products, Amphenol Aerospace Operations (AAO) and Commercial Air Division (ACAD) hereby acknowledges its products DO NOT contain, at the homogenous material level, intentionally added mercury (Hg) or mercury compounds in excess of 1000 ppm or 0.1% w/w.

Product conformity assessments are based on Amphenol specific data and Material Declarations received from our suppliers. It is not our standard practice to perform confirmatory or tramp analysis on supplied materials, nor assume liability beyond supplied product cost, for any errors or omissions attributed to our supplier base.

AAO and ACAD will respond to specific questions regarding the chemical constituents in their interconnect products to the extent that such response does not require the disclosure of proprietary or confidential information.

Should you have any further questions, please contact us at your convenience.

Sincerely,

A handwritten signature in blue ink that reads "John Bianchi". The signature is written in a cursive style.

John Bianchi

Engineer, Environmental Health Safety & Sustainability
